***A community focus group discussion about wealth creation &
renewable energy
- Food and beverages will be provided -***

This focus group is a research project conducted by Augsburg College, MBA students on behalf of Mr. Reggie Edwards and Mr. Bukata Hayes of Sovereign Systems, LLC.

If you have never participated in a focus group before, here are a few things about focus groups that may be helpful to know.

A focus group IS:

- A group interview of a focused topic
- A research opportunity to get a combined local perspective

A focus group IS NOT:

- A sales pitch for a product or service
- A training event or lecture
- A survey
- A political rally or fundraiser

We like to ask questions and listen to your answers about these issues. We won't be talking about our opinions, only asking questions. We get to learn – you get to voice your opinions on important topics and enjoy some good food.

Your thoughts and perspectives are very important to us!

Call [507.514.4412](tel:507.514.4412) to confirm your attendance and/or ask for more details.
